Ktech signs an 8VSB Translator Test Program with Idaho Public TV

Chatsworth, CA – December 5, 03 - Ktech Telecom, the leader in Digital Broadcast and Digital Cable technologies, has signed a contract with Idaho Public TV under the 8VSB Translator Test Program. Operating under a Special Temporary Authority (STA) from the FCC, Idaho Public TV will be operating Ktech's 8VSB Digital Translator Product under the terms of the STA. The service will go operational in late Q1 of 2004.

About Ktech Telecom

Since 1995, Ktech is a manufacturer of professional digital Broadcast and digital CATV Head-End equipment. Its products include 8VSB modulators, digital demod/decoders, SMPTE-310M to ASI, IEEE-1394 Converters, and 8VSB digital processors. Visit www.ktechtelecom.com for more information

About Idaho Public TV

The mission of Idaho Public Television is to meet the needs and reflect the interests of our various audiences. Idaho Public Television is an agency of the State of Idaho under the Idaho State Board of Education. The Idaho Public Television headquarters is located in Boise, Idaho, with offices and production facilities on the campuses of the University of Idaho, in Moscow (KUID/KCDT), and Idaho State University, in Pocatello (KISU-TV). Idaho Public Television, a part of the Public Broadcasting Service, is the "electronic main street" of the state, where people turn to be educated, informed, enlightened, and entertained. New technologies are expanding the ways in which we reach viewers. Digital television gives improved quality broadcasts of multiple PBS channels, or high-definition television (HDTV).
